Rethink the access of the store.

SALTO SYSTEMS
THE SMART ACCESS FOR RETAIL

Since 2001, SALTO Systems has been delivering state-of-the-art, wire-free, mobile and keyless electronic access control solutions and has established a very strong presence in the retail industry. By developing innovative and reliable electronic locking products that help retail establishments simplify access management workflow, SALTO has helped retail businesses increase productivity, security, and operations efficiency in shared, single, and multiple locations.

SALTO delivers profit-driven keyless smart access for retail. Businesses can connect SALTO with management and security software (BMS) and third-party systems to automate tasks and connect alerts. Save time and money with quick installation on almost any type of door and access point. Achieve faster onboarding for new staff members by sending keys even before their first day.
Say goodbye to mechanical keys and the cost of replacing them and the worry associated with lost keys. Control who goes where – and when – for any or all retail locations. And when expanding to new properties, affordably scale and establish access management across a number of properties.

MAKING EVERY ACCESS MATTER

SALTO Systems is helping retailer businesses simplify their access management workflow to increase productivity, security, and operations efficiency — in shared, single, and multiple locations.

No matter the size, from specialist stores or convenience stores, which generally have long opening times, to shopping malls, it's key. Monitor access and entrances upholding the flow of customers through their store. SALTO Systems makes access control simple and secure and helping you granting specified access for your staff, suppliers, customers or even delivery services. For the retail market in particular, SALTO is making every access matter.

Grant specific access for your staff, suppliers, or delivery services.

Monitor real-time access and entrances without disturbing your store customer flow.

Build customer loyalty in every phase of the customer journey.

Help improve the access workflow management and system monitoring for store staff.

SMART RETAIL ACCESS CONTROL SOLUTIONS

STREAMLINE YOUR OPERATIONS AND SCALE GLOBALLY

Access management is different for every business. SALTO KS is your cloud-based access control solution whether you're a retail bank, chain of department stores, or a single brick-and-mortar store.

We serve many types of chains and have learned a lot about how you run your business. Let's simplify your operations, connect to your existing software tools, improving your business's security, and grow your retail business.

NOT JUST FEATURES: SOLUTIONS

MANAGE MULTIPLE LOCATIONS: Whether you're a retail bank, chain of department stores or a single brick-and-mortar store, SALTO KS allows you to manage all your locations from a single app.

PRECISE ACCESS: For every company, staff member, or guest, access can be determined down to the minute. Make sure people can only enter where and when they should

ANALYZE VALUABLE DATA: Keep track of who goes where and when. You can even set notifications for specific events, so you're always up-to-date. Your space can be open for business 24/7.

INTEGRATE EASILY: Cloud-connected service platform, stay ahead of market trends, and connect to your preffered security solutions for your business.

SOLUTIONS FOR EVERY TYPE OF RETAIL STORE

FAST FOOD / RESTAURANT CHAIN

Fast food and restaurant chains often have employees that work a variety of schedules with varying access to certain restricted areas. Controlled access to a manager's office where safes are often located is very important. SALTO has easy-to-install and use smart access control solutions for one- to multiple-restaurant locations.

BANKING / INSURANCE

Retail bank and insurance branches facilities call for some of the most stringent security procedures. SALTO delivers smart access technology that offer the protection required that is also easy to manage. Provide employees the keyless access they need to thrive in a secure working environment and the protection they require to be safe.*

FITNESS CENTER CHAINS / GYM FRANCHISES

Fitness centers and gyms are often open late into the evening and even 24-hours. It's important to deliver an access control solution that protects employees but is also convenient membership services (e.g. 24/7 smart access and locker service). Provide access to employees and services for members in an easy-to-use format that can be updated quickly across all locations.

SUPERMARKET / DISCOUNT STORES

Supermarkets and discount stores have a variety of access control needs – employee only areas, money storage, and emergency exits. They also typically have a mix of full- and part-time employees that work a variety of schedules. SALTO access control solutions deliver seamless, easy-to-manage and easy-to-install electronic lock solutions that work with any type of retail facility and other software management systems.

CLOTHING / FASHION STORES

Clothing and fashion stores typically have varying hours and complex employee schedules. It's important to provide the ultimate in access control for security to protect assets like merchandise and money stored in a safe or manager's office. It's also essential to offer convenient access for staff members delivering seamless, secure and keyless entry transforming the employee experience .

* Secure ATM door locking system using SALTO smart access

5

THE FOUR PILLARS OF NEW RETAIL

STREAMLINE OPERATIONS

Manage access to improve your business processes and focus on what you do best: your business.

Streamlining access management is essential to maximizing your organisation's assets, productivity and employee digital experience.

— **Report store activity.** Individually define who can enter which door during which time period via mobile access, on iOS or Android, smart Tags, or PIN code.

— **Maximize ROI from your multiple locations.** Grant cross-access management in case you have multiple facility growth, using real-time event data that can be added to reports.

— **Save money and time on installation.** Installations done in hours. Designed to be installed in doors with existing locks, with no need for additional modifications or wiring.

24/7 SECURITY

Keyless access control provides 24/7 activity insight which improves safety for customers and staff members.

Achieve reliable access control, physical security, and simplify your security plan. Say Goodbye to Mechanical Keys. No more rekeying. Grant and revoke access instantly.

— **Provide peace-of-mind for everyone by implementing physical security measures** for your retail business during and after business hours, offering your staff seamless keyless and mobile access.

— **Control who can access what, when, and where in real-time**, grant access to employees, or even delivery services and possible integration with other systems.

— **Connect the access control system to your business ecosystem.** Connect SALTO with your management and securty software (BMS) and third-party systems to automate tasks and connect alerts.

FLEXIBILITY & SCALABILITY

Secure scalability for cloud and flexible electronic locking infrastructure.

Easy to expand to a new door for as many locations as you wish. SALTO's access control expertise and hardware quality allows working with any door in the world, however unusual the door may be.

STAFF EXPERIENCE

Improve your staff experience and simplify your access control.

Give employees the opportunity to have access to all locations with the convenience of their phone. This added convenience results in a happy staff!

— Designed to work for virtually every door in a location that can affect the experience of your brand, and **seamlessly cross-linked and integrated with your retail business management software.**

— Changes that come with growth, **helping you expand.** With a worldwide network of trained and certified installers, you'll always have the support you need wherever you decide to expand.

— More secure future access control solutions that **flexibly adapt to complement any retail business needs and door type.**

— **Faster onboarding for new staff members.** Send keys to new hires before their first day for easy onboarding

— **Easy mobile or Tag access.** Flexible and secure options to access from mobile access, on iOS or Android, Tags, or PIN code.

— **Increase staff satisfaction.** Connect your doors to your staff to automatically be converted to access rules based on membership plans or time-based restrictions.

SALTO KS CLOUD-BASED ACCESS CONTROL SOLUTION

Proven reliability and recognised stability bring the option of cloud access control to every business, providing vastly better functionality and performance than is possible with a traditional mechanical solution. Cloud-based access control is a flexible solution that requires no software installation, nor the cost of a fully-wired electronic product. All you need is an online device with an Internet connection.

SALTO KS is built for any business looking to manage access in an easy and secure way. No matter your industry or the size of your business, we've got the cloud-based access control solution that fits your needs.

UNDERSTAND THE SALTO KS ECOSYSTEM

SALTO KS is a simple, yet sophisticated and flexible cloud-based smart access control solution that fits the needs of your business today and tomorrow. The four parts of the SALTO KS - Keys as a Service - cloud-based access control solution are: Web & Mobile App, IQ, Electronic Lock & Smart Key.

WEB & MOBILE APP
EASILY GRANT SPECIFIC ACCESS

Have full control of all functions and features from the web app. And, while on the go, use the mobile app for keeping track of events, remote unlocking, and blocking.
IQ
THE CENTRAL HUB OF YOUR SITE

The SALTO KS IQ receives all changes and settings from the SALTO KS application and ensures that all locks are updated within seconds. The IQ serves as the brain of your site, connects your wireless locks to the cloud, and can be extended by adding additional repeaters if needed.

HOW IT WORKS:

WEB & MOBILE APP

Your portal to your account, where you can create access groups, manage users, and view entries to your properties from your computer or mobile devices.

CLOUD

SALTO KS cloud technology provides security with more simplicity, greater value, faster responses, and a better user experience.

IQ

The IQ comes in different variants (Wi-Fi, PoE, cellular) to connect to the cloud and Bluetooth to connect to the SALTO KS smart lock.

DOOR LOCK

The user smart Tag or mobile triggers the lock to engage within seconds so users or staff can enter easily and according to their access rights.

ELECTRONIC LOCK
WIRE-FREE & COMPATIBLE WITH YOUR DOOR

SALTO KS sites are equipped with wireless SALTO locks. SALTO locks can go on any door in the world, however unusual the door may be. SALTO offers a broad range of hardware including electronic locks or cylinders for main entry doors and internal meeting rooms and wall readers for all electric doors including gates. These solutions make smart access to any door possible.

SMART KEY
MOBILE OR TAG ACCESS

You can always use your smartphone to unlock doors, but as a second credential you can also use Tags. A Tag is a physical device (contactless key fob) that works based on RFID. With a built in secured chip, an opening can be triggered by directly presenting the Tag to the lock.

ACCESS MADE EASY AND SECURE

**Keep one smart tag with unlimited keys.**

Heavy keychains are now a thing of the past. With SALTO KS your staff can say goodbye to mechanical keys and collect all their access rights on a single smart Tag, which can be added as a guest to multiple systems as well. There's no need to make copies or replace the lock if keys are lost or stolen, mobile keys and Tags have never been more secure. Open your door via PIN code, smart key Tag, remotely, and even from your smartphone.

MOBILE KEY

TAP AND UNLOCK WITH MOBILE KEY

With SALTO Bluetooth Low Energy locks you can unlock doors with Mobile Keys. It's time to say goodbye to mechanical keys by a better and easier way to access. Users can receive Mobile Keys anytime and anywhere, making issuing and receiving access rights much easier and more flexible.

SMART TAG

YOUR TRUSTWORTHY BACKUP

Tags replace that ring of keys and grant designated access to visitors, employees, or even delivery services. Simply assign a Tag and define when and where that Tag can go. If a Tag is lost, simply block and assign a new one, and even receive a notification if someone tries to enter with a blocked smart Tag.

PIN CODE

TYPE IN A PIN DOOR CODE

With the new SALTO door code locks, there is no need to carry any Tags. Type your PIN code and enjoy the convenience of unlocking your door using the smart lock keypad; or generate and assign a secure and unique PIN code for your guests to let themselves in — no matter where you are — and never worry about carrying or losing keys again.

REMOTE OPENING

OPEN DOORS FROM ANY DISTANCE

Let guests in more conveniently than ever. SALTO KS lets you open doors from anywhere, anytime. Whether it's a visitor who arrived earlier than you or a new employee without a Tag, you can unlock doors for your guests via remote opening functionality from anywhere around the world. All you need to do is swipe left!
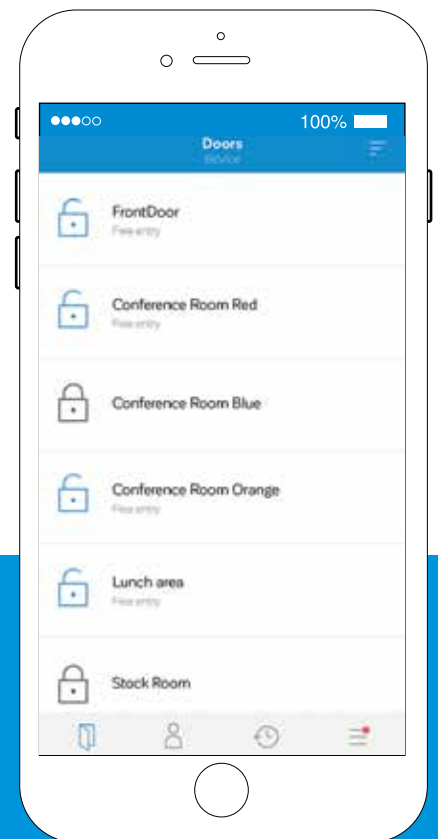

WEB & MOBILE APP
MANAGE USER ACCESS ANYWHERE, ANY TIME

SALTO KS is the perfect solution for any type of building facility because it gives management the capability to quickly assign access rights or delete them.

SALTO KS makes access control a smarter way to manage business access. Installation is easy and the solution is affordable – and can grow right along with your business. System administrators can forthwith and conveniently manage all user access through a simple and intuitive cloud-hosted access management web dashboard.

With SALTO KS manage user keys, monitor all activity, and assign different access levels from any device, anywhere, anytime.

MOBILE APP:

ENTRIES

View all entries and incidents or remotely open a selected door.

ALERTS

Be informed on entry activity with messages and notifications.

MOBILE ACCESS

Send or receive a mobile key to open any door or gate with your phone.

The SALTO KS mobile app allows SALTO KS users to remotely manage and monitor their door access activity across all their SALTO KS systems:

— Swipe-to-open doors.
— Block/Unblock user smart Tags, in case someone lost their keys.
— Oversee events on all doors across all systems.
— Verify and open doors and block users with Touch ID.
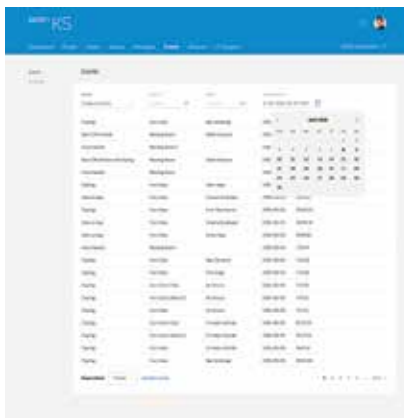

HOW DOES WEB APP WORK?

MULTI LOCATION

Manage multiple locations

SALTO KS offers an easier way to create and manage your retail business doors across multiple locations, simplifying the management of user building access.
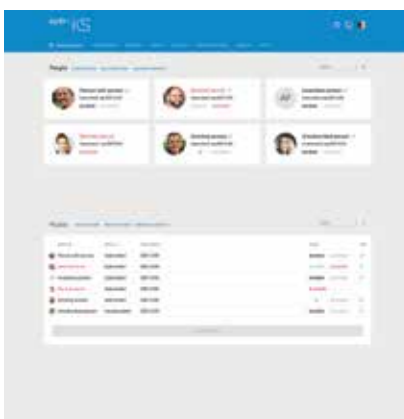

Centralize access management and meet your facility operation's changing needs across all locations with SALTO KS cloud-based fully wireless access control system.

EVENTS

24/7 real-time activity monitoring

Monitor all access activity 24/7 from any device in real-time. With SALTO KS you'll gain total visibility for all events and incidents related to your locks. From the web app, you can even set email or push notifications for specific events such as rejected entries, door left open, or low battery.

USERS

Managing access control with permissions and user roles

Create or invite users to your site in just a few simple steps. With the SALTO KS web app you can determine the role of each user:
- Owner / Admin
- Super user / Basic user

Decide which doors, and at what times, the user has access and determine their rights:
- Remote opening
- Offline access
- Office mode rights

You have full control for user management with SALTO KS.

ACCESS GROUPS

Access level restrictions

Different users need different access rights and are part of different user groups. You can assign Tags and send mobile keys to restrict access to selected users and groups to only have access to certain doors or locations.

ELECTRONIC LOCKING PLATFORM FOR EVERY ACCESS NEEDS

SMART LOCKS DESIGNED TO BE SECURE

SALTO delivers an easy-to-use electronic locking platform that integrates all your physical security needs through smart, wireless, and battery-operated smart locks, giving you all the latest users' access information for virtually all of the doors in your facility.

SALTO offers a broad range of hardware, making smart access to any door possible. Designed to cover every access point type and with the latest technologies to protect against advanced attacks, SALTO's electronic locking platform technology leverages industry-leading security practices, including advanced encryption to provide users a secure and seamless keyless and mobile experience.

HELPING YOU EXPAND

With SALTO, it's easy to expand to a new room, floor, or as many locations around the world. SALTO's access control expertise and hardware quality allow it to work with with any door in the world, however unusual the door may be. With a worldwide network of trained and certified installers, you'll always have the support you need wherever you decide to expand.

ELECTRONIC LOCKS

With a large variety of models, electronic escutcheons fit virtually any door. They are also suitable for use at fire doors and emergency exits.

ELECTRONIC CYLINDERS

Extensive range of compact-sized electronic cylinders and profiles designed for doors where fitting an electronic escutcheon is not possible or required.

READERS AND DOOR CONTROLLERS

A complete range of readers and controllers facilitate the expansion of SALTO access control benefits to every door to provide your facility with a complete security solution.

DOOR COMPATIBILITY & STANDARDS

Totally wire-free and compatible with most European, Scandinavian, and ANSI mortise locks and tubular latches.

DESIGNED TO COVER EVERY ACCESS POINT

Extensive range of electronic locks, cylinders, and readers to cover all the needs of any type of building.

EASY TO INSTALL

Designed to be installed in doors with existing locks, with no need for additional modifications or wiring.

SECURE MOBILE ACCESS

Complete mobile-compatible electronic-locking platform makes it easy and secure to incorporate smartphones as a part of your access control solution.

SECURITY STANDARDS & CERTIFICATION

Industry security standards ensure the quality and durability of locks with extensive tests and certificates, defined benchmarks of operation, and security.

XS4 ONE | EX7XX

The SALTO XS4 One is the evolution of the Original model with a built-in, totally new reader available in two colours. This version is compatible with most European mortise locks and cylinders.

XS4 ONE - DIN | EX7XX

The SALTO XS4 One DIN version escutcheon is specially designed to meet the requirements of DIN 18250 and 18251 standard doors prepared for DIN 18250 standard mortise locks.

XS4 MINI | EX150

The XS4 Mini for European DIN mortise locks has been designed with the requirements of DIN 18251 standard doors prepared for DIN 18250 standard mortise locks, and is compatible with the DIN 18251 standard fixing instructions.

SMART DOOR LOCKS

DESIGNED TO FIT YOUR BUILDING'S NEEDS.

With a large variety of models, XS4 electronic escutcheons blend attractive design and sophistication with strength and smart technology for your building. Applicable to exisiting standard doors, the XS4 makes it simple and fast to upgrade the traditional knob set without having to replace or drill the door.

All are totally wire-free. SALTO KS sites are equipped with wireless SALTO locks. SALTO locks can go on any door in the world, however unusual the door may be. SALTO offers a broad range of hardware, making smart access to any door possible. Compatible with most European, Scandinavian, and ANSI mortise locks and tubular latches.

The XS4 features high security protection via high resistance, hardened anti-drill plates to protect wiring and reader area. Additional protection is provided by hardened axes and floating steel balls in the handle area.

MAIN FEATURES AND BENEFITS

Low set-up cost and maintenance-reducing costs and time of installation. Easy to retrofit, installing a new SALTO KS smart lock is quick: simply change the handle set!

Large number of models, versions, and finishes making it suitable for a wide range of applications.

Specially designed for use on busy, high traffic doors that need additional strength and provides an ideal and reliable solution for outdoor, as well as indoor, use.

Communication between the user smart key, the physical network, and the electronic lock is encrypted and secured.

Battery-operated. Remote report and real-time battery-status of locks with low battery level.

Models for both inside and outside use availaible. Outside models are IP55 rated to endure the elements.

XS4 ORIGINAL | AX6XX

The SALTO XS4 Original narrow body version is specially designed to fit most ANSI, Euro, and Scandinavian profile standard doors, even narrow profile framed doors.
XS4 ORIGINAL - KEYPAD | EX6XXK

The SALTO XS4 Original electronic lock with keypad increases security and control, as it offers the choice of three forms of authentication to grant access.

XS4 EMERGENCY EXITS | EX6XX

The SALTO XS4 advanced panic bar solutions enable emergency exit doors equipped with panic bars to be controlled with an innovative stand-alone electronic locking system.

SALTO NEO CYLINDER | NXE

The SALTO Neo Cylinder offers value far beyond security. Of course, upgrading a mechanical door to electronic access control enhances security, but the SALTO Neo Cylinder provides greater control of the door.

It offers end users mobile keyless access to any access point and wireless access to audit trails, reports, alerts, and user access rights updating with the latest SVN-Flex access control technology.

SALTO Neo EU profile half cylinder.

SALTO Neo EU profile with mechanical inside knob.

SALTO Neo EU profile double cylinder with inside electronic knob control.

ELECTRONIC CYLINDERS

DESIGNED FOR ANY KIND OF STANDARD DOORS

The compact SALTO Neo Cylinder is designed for doors where fitting an electronic escutcheon is not possible or required and can be installed on standard doors, server racks, gates, cabinets, electric switches, sliding doors, and more. It's available in an extensive range of models to suit almost any kind of door across the globe – from Europe to Scandinavia, ASIA to the Americas, and Australia.

SALTO Neo Cylinder technology allows us to introduce customers, systems operators, and installers to new experiences and to connect keyless access. The SALTO Neo Cylinder has more functionality and performance capability, allowing businesses to connect to their on premises network via advanced SVN technology or the cloud with the SALTO KS cloud-hosted access management platform.

For any building, function, or model, SALTO offers the perfect electronic cylinder to fit any door. The SALTO Neo Cylinder delivers an easy-to-use electronic locking platform that integrates all of the physical security needs through smart, wireless, and battery-operated smart cylinders, giving system operators all the latest user access information for virtually all of the doors in a facility.

MAIN FEATURES AND BENEFITS

Simple installation and adaptable with any previous mechanical cylinder model. No wiring or drilling work required.

Wide range of models: European profile cylinder, UK oval profile cylinder, mortise cylinder, Swiss round profile cylinder, RIM exterior cylinder, Scandinavian profile cylinder, etc.

Communication between the carrier, the physical network, and the electronic cylinder is encrypted and secured.

Battery-operated cylinders. Tested up to 110,000 operations on a standard set of batteries (4 x LR1). Low battery status information is obtained from users' keycards (SVN) or wirelessly (BLUEnet).

Models for both inside and outside use available. Outside models are IP66 rated to endure the elements like water and dust.

Wide range of finishes and reader colours: Satin chrome, polished chrome, polished bright brass (PVD), satin brass (PVD), black satin. Available with antimicrobial BioCote® coating**.**

SALTO NEO SWING HANDLE | NXE

Compact and easy to install, SALTO Neo electronic cylinders are designed for the protection of cabinet doors such as IT racks or lockers and fit almost any type of swing handle server rack on the market.

SALTO NEO CAM LOCK | NXCL

The SALTO Neo Cam Lock electronic cylinder is specially designed to fit most cabinets equipped with a cam locking mechanism.

WALL READERS & DOOR CONTROLLERS

CUTTING-EDGE ONLINE ACCESS CONTROL SYSTEM

SALTO offers a wide range of wall readers that, in combination with SALTO KS door controllers, enable the expansion of SALTO access control benefits to doors where a stand-alone electronic lock cannot be fitted, i.e., barriers, lifts, sliding doors, or electronic gates, where control must be boosted by online real-time access control.

It offers a large number of models, wall reader, mullion wall reader for narrow profile frames, or panel readers to implement on intercoms, etc.

MAIN FEATURES AND BENEFITS

Designed to fit standard electric boxes, making the installation quick and easy.

Modern design with clear LED signaling, includes latest electronics and is completely sealed and designed for heavy-duty outdoor use.

Communication between the carrier, the physical network, and the reader is encrypted and secured.

For outside use — IP66 rating. Reader is housed in a two-piece, weatherproof secure electronics potted enclosure.

Wide range of finishes and reader colours: Black and white finishes; conical or flat square shape with rounded corners.

SALTO WALL READER | WRDBEXK

The SALTO KS Wall Reader incorporates the cutting-edge design standard in this technological powerhouse.

SALTO MULLION READER | WRDB0MX

The SALTO KS slim wall reader for flush mounting has been specially designed to fit lifts, sliding doors, or electronic gate doors that have a narrow profile frame, and where there is insufficient space to install a standard wall reader.

SALTO PANEL READER | WRDXP

Designed to be integrated behind lift panels, door intercoms, electric switches, or turnstiles and gates. These models need a window nearby, which is necessary for reader antenna operation.

SALTO SPACE - Data-on-Card -
ON-PREMISES ACCESS CONTROL SYSTEM

Standalone, virtually networked, wired and wireless smart locks, all working within a single access control technology platform.

SALTO SPACE DATA-ON-CARD ACCESS CONTROL SOLUTION

ACCESS CONTROL FOR SMARTER BUSINESS MANAGEMENT

SALTO is driven by continuous innovation and is committed to developing the most technologically-advanced and aesthetically pleasing electronic locking solutions. Our pioneering SALTO Virtual Network SVN data-on-card platform provides stand-alone, networked locking solutions that continue to set SALTO apart. From the beginning, our technological expertise has evolved to leading positions in both cloud technology and mobile access solutions.

SALTO's SPACE data-on-card access control technology on-premises platform is designed to give end users ultimate freedom of choice regarding system layout, type and number of access points as well as level of security. In addition, SALTO easily adapts to changing requirements and can deliver scalability no matter what the retail business project size.

SVN
STAND-ALONE NETWORK

Innovative, wire-free technology allowing stand-alone electronic locks and cylinders to read, receive, and write information via its operating smart cards.
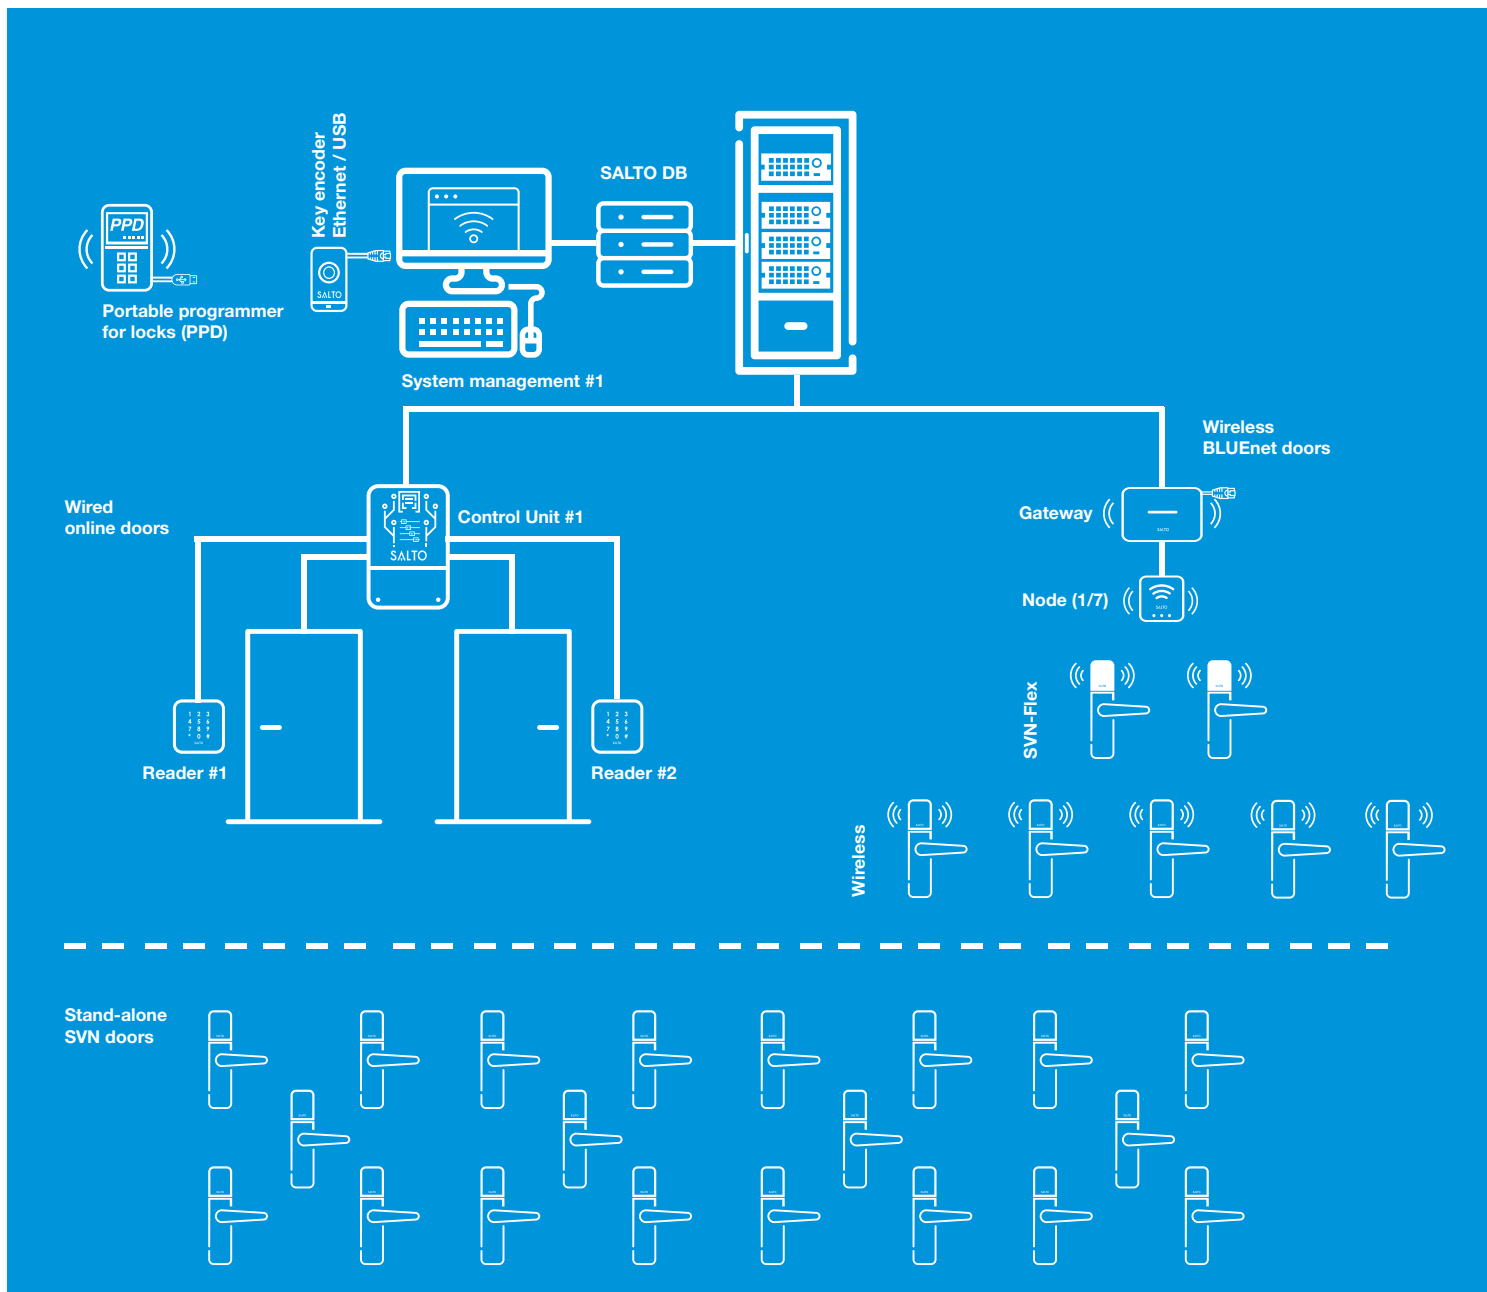

BLUEnet
WIRELESS NETWORK

Access control system is networked through Bluetooth RF and is especially designed for doors where real-time control is required.

JustIN MOBILE
MOBILE ACCESS

Mobile technology makes it easy and secure to incorporate smartphones as a part of your access control solution.

PROACCESS SPACE MANAGEMENT SOFTWARE

ProAccess SPACE access control management software provides an intuitive user-centered software interface that makes it simple and secure to incorporate access control for any type of bulding size or user need. It's powerful and flexible software allowing each system operator to set up their own preferences: capabilities and security level, language settings, and others.

SALTO's SPACE platform offers several ways to integrate with third-party systems. This includes interfaces and APIs for connecting SALTO smart lock technology to video surveillance, vehicle access, biometrics, time & attendance, escape door control systems, intrusion alarm, and many more.

MAIN FEATURES AND BENEFITS

Manage and secure your building's access plan for all your facilities right from your desk. SALTO web-based and mobile access control technology make it simple to manage and configure your building access plan.

Designed to be easy and intuitive, allowing system administrators to manage doors and user keys in just a few easy steps, and in real-time.

Advanced access control capabilities. Access control technology platform designed to give end users ultimate freedom of choice regarding system layout, type and number of access points, as well as level of security.

Secure and smart. SVN data-on-card, BLUEnet Wireless, SVN-Flex and JustIN Mobile access technology embedded onboard every access point around the building makes keyless, wire-free mobile and keyless experience a reality.
BUILD YOUR OWN DOOR

CUSTOMIZE YOUR ELECTRONIC SMART DOOR LOCK

Select an electronic smart lock model and door type and customise your SALTO door lock with a range of colours, finishes, and handle options with the SALTO MyLock configurator.

The innovative MyLock tool allows for complete visualization and customization of the locking solutions chosen by the user. By accessing the webpage, the user is able to select the door lock model online to configure and create a customised door by personalising everything.

SALTO continues to innovate by launching a unique tool for the access control industry.

https://mylock.saltosystems.com

CHOOSE YOUR ELECTRONIC SMART LOCK MODEL

Choose your favorite electronic smart lock model (ANSI, Euro, or Scandinavian standards) to create your customised door and personalise everything.

CHOOSE YOUR DOOR TYPE AND SELECT A HANDLE DESIGN

Choose a door type, finish, handle design, and lockset finish that match your working space.

DOWNLOAD AND SAVE YOUR SETTINGS

Once the door configuration is complete, you can store and compare it against previously-configured door lock models or save it as a PDF.
